

# Local surgeons appointed to international board

Dr. William Burden and Dr. L. Scott Ennis of Destin Plastic Surgery joined 25 of the top plastic surgeons in the United States for the LEAD (Leadership, Experience in Augmentation and Development) program hosted in Denver by Mentor Corporation, the worldwide leader in breast implant technology.

The meeting discussed breast enhancement procedures, new facial surgery and wound closure technology. Each surgeon in attendance was appointed to the International Physician's Advisory Board for Mentor Corporation. This group will advise Mentor Corporation on its latest product development and practice management systems.
