

What services are provided?

Dr. William R. Burden and Dr. L. Scott Ennis are *fully-trained* plastic surgeons and certified by the American Board of Plastic Surgery, the *gold standard* for plastic surgery. They specialize, and are known for, *facial surgery, breast surgery* and *body contouring procedures*. Dr. Burden and Dr. Ennis have authored papers on facial surgery and breast surgery and are frequently asked to train doctors on new techniques.

Destin Plastic Surgery provides more Botox, Restylane and Juvederm treatments than any other facility in North Florida and the surrounding states. Laser services include hair removal, treatment of spider veins and age spots, acne and skin rejuvenation. No facility in Northwest Florida, and only a few in the country, offers this abundance of services.

How would you describe your business philosophy?

Destin Plastic Surgery's mission is to provide first-class surgical services in a safe, comfortable and welcoming environment; one in which we would be happy to treat our own families. Our mission is apparent when you enter the facility. You will see attention to detail and comfort that is found in a world-class facility. Patients receive superior service by an experienced, caring staff.

Has your practice expanded recently?

The services at Destin Plastic Surgery are continuously expanding. Dr. Grisoli, from New Orleans, La., has joined us to offer varicose vein treatment. The Bosley Hair Institute, based in Beverly Hills, will be joining us to offer hair replacement and hair transplantations.

“See why people travel from around the world to Destin Plastic Surgery.”
